About Us

Trex Infosys is a leading IT solutions provider specializing in website development, digital marketing and custom software solutions. We help businesses establish a strong online presence and grow in the digital world with innovative and affordable solutions.

Trex Infosys empowers businesses in Canada, The USA and Australia with agile, cost effective IT solutions, combining global expertise and local insights to drive innovation, efficiency and sustainable growth.

How we work

Requirements Gathering.

Focused on understanding every detail, we gather and validate requirements for seamless project execution and client satisfaction.

Analysis and Planning.

We transform insights into structured plans, balancing scope, resources and deadlines to achieve efficient, high quality outcomes.

Design & Development.

Our team designs user friendly interfaces and develops high-quality software's & websites tailored to your unique needs and goals.

Testing Device & Release.

We conduct comprehensive testing and quality checks to guarantee reliable releases that align with client goals and industry standards.

Maintenance and Support.

Continuous maintenance and support ensure your systems stay secure, updated and optimized for reliable, uninterrupted business performance.

Our Vision

To become a trusted and innovative IT solutions provider, empowering businesses worldwide with cutting edge digital technologies and helping them achieve sustainable growth in the online world.

Our Mission
